

I listen to K-LOVE in my community as do many of my friends. This radio station keeps me informed of both local and national events. It also provides my family with wholesome music.

If K-LOVE were displaced by a LPFM broadcaster, it would have detrimental effects on my local community. Many interdenominational churches use K-LOVE to advertise local events. Another type of broadcaster would not be as effective in bring the local Christian community together.

K-LOVE provides a very important public service. K-LOVE brings local Christians together to support various humanitarian services and projects. K-LOVE also provides my community with excellent music programming that is not offensive and safe for the entire family to listen to.
